Increasing Travelling Frequency of Singaporeans

- The graph depicts an increasing number of Singaporeans travelling overseas.

Number of Singaporeans that Travel abroad from 1997 –2024
(IMMIGRATION AND CHECKPOINTS AUTHORITY, 2025)

Crisis Unpreparedness Abroad

Earthquakes

Wildfires

Hurricanes

Political Instability

Due to Singapore's relative safety and stability, Singaporeans may have limited exposure to crises such as natural disasters, political unrest or health emergencies. As a result, many may lack the experience or preparedness to respond effectively when faced with such situations abroad. This unfamiliarity can lead to delayed reactions or poor decision-making during critical moments while travelling.
